PROFILE

Entry-level MERN Stack Developer with a strong foundation in frontend and backend development, expertise in graphic design, a focus on innovation and user-centric design, extensive experience in crafting responsive, mobile-friendly websites, specialization in optimizing website performance and implementing the latest technologies, and proven ability to lead development teams and communicate complex technical concepts to non-technical stakeholders.

EDUCATION

Bachelor of Computer Applications
Mangaldoi College (Gauhati University)

08/2018 – 09/2022
Mangaldoi, India

A solid foundation in computer science, software development, and information technology. Proficient in programming languages, database management, and software engineering principles. Skilled in developing and implementing software solutions, with a strong understanding of modern technologies and their applications in various industries.

PROFESSIONAL EXPERIENCE

Frontend Web Developer
Prodigy InfoTech · Internship

05/2024 – 05/2024
Guwahati, India

Frontend Web Developer intern with hands-on experience in HTML, CSS, and frameworks such as Bootstrap, jQuery, Tailwind CSS, and JavaScript. Developed and optimized responsive, user-friendly web interfaces, collaborated with cross-functional teams, and contributed to enhancing website performance and user experience.

PROJECTS

Full Stack E-Commerce Website
- **Frontend Development:**
- Designed and implemented responsive user interfaces using HTML5, CSS3, and JavaScript frameworks such as React.js. Integrated user-friendly navigation and interactive features to enhance user experience and engagement.
- **Backend Development:**
- Developed RESTful APIs using Node.js and Express.js to handle client-server communication and data management. Designed relational databases (MongoDB) to store product information, user data, and transaction records.
- **E-Commerce Functionality:**
- Built product catalog features including search, filtering, and sorting options for seamless browsing and shopping experiences. Integrated payment gateways (Baintree) to facilitate secure online transactions and order processing. Implemented order management systems with features for tracking, status updates

Full Stack Doctor Appointment System
Doctor Appointment System using the MERN (MongoDB, Express.js, React.js, Node.js) stack involves creating a comprehensive application where patients can log in, browse available appointments, and book appointments through a form
